

**SolarTech Power Solutions**

# **12V charger production inverter**

## Overview

---

What is a Rego 12V 3000W inverter charger?

The REGO 12V 3000W inverter charger combines the inverter and battery charger into one complete powerful solution. 3000W continuous pure sine wave AC output and peak power up to 9000W, allows you to power most heavy-duty appliances easily.

Does a power inverter have a battery charger?

Power Inverters with built in direct current battery chargers provide a uninterruptible power supply. If you require a home power supply backup this would be the solution.

What does an inverter charger do?

A1: The Inverter acts as a DC to AC converter that allows you to power your household appliances. The Inverter Charger not only acts as a DC to AC converter that allows you to power your household appliances but also charge and maintain a battery bank when connected to shore power. Q2: What size inverter should I buy?

Can the inverter work with a 12V battery system?

This inverter can ONLY work with 12V battery system. The inverter CAN NOT can in parallel Battery MUST BE connected first 1200 watt is continuous output power, peak power is 3600W Package included: Note: Different types of loads have different starting impulse currents.

Can a power inverter charge a battery bank?

This Power inverter is able to charge the battery bank when AC power is connected to the inverter. This inverter can ONLY work with 12V battery system. The inverter CAN NOT can in parallel Battery MUST BE connected first

1200 watt is continuous output power, peak power is 3600W Package included:.

How much power does a renogy inverter charge?

With a peak power capacity of 9000W, you can easily power most heavy-duty appliances, keeping your off-grid life fully operational. Track your inverter charger's performance on your smartphone using the Renogy DC Home App. For real-time energy data, connect to the Renogy ONE Core or One MI (sold separately).
