

SolarTech Power Solutions

16 8v 4-cell lithium battery pack

Overview

What is a 4 cell battery pack?

Discover our range of 4 Cell (14.8V~16.8V) lithium-ion battery packs, designed to provide reliable and consistent power for your electronic devices and projects. With their compact size and high energy density, these battery packs are suitable for a wide range of applications, including RC vehicles, drones, portable electronics, and more.

What is a 4S LiPo battery?

With a nominal voltage of 14.8V, these batteries are designed to deliver the high-performance power required for RC aircraft, drones, and other applications. We offer 4S LiPo batteries from trusted brands known for their quality and reliability. Whether you need a replacement battery or want to upgrade, our selection has you covered.

What battery protection circuit for drill motor 4s 40A?

Check each product page for other buying options. 4S 40A 14.8V 16.8V Li-ion Lithium Battery Protection Board PCB BMS Charger Protection Circuit for Drill Motor (4S 40A). 16.8V/3A Dual Channel V-Mount/V-Lock Battery Fast Charger, Compatible with All V-Mount Batteries and V-Mount Brick On The Market.

What is a battery pack used for?

With their compact size and high energy density, these battery packs are suitable for a wide range of applications, including RC vehicles, drones, portable electronics, and more. We offer a variety of capacity options to cater to different power requirements.

Are 4S LiPo batteries good for RC?

Our selection includes 4S batteries with various mAh ratings and discharge rates to match your RC needs. With a nominal voltage of 14.8V, these batteries are designed to deliver the high-performance power required for RC

aircraft, drones, and other applications. We offer 4S LiPo batteries from trusted brands known for their quality and reliability.
