

SolarTech Power Solutions

20 degree home energy storage cabinet

Overview

What is a power storage 20?

Scalable to handle electrical services up to 800A across multiple units, the Power Storage 20 delivers clean reliable energy to every circuit in the home. Combine with Savant Load Management to provide automatic load shedding capabilities on grid loss or at various state of charge (SoC) levels.

What is a savant power storage 20 Battery?

Savant Power Storage 20 Battery: The Savant Power Storage 20 Battery is a 20 kWh LiFePO4 storage system. Each Savant Power Storage 20 Battery can support up to two Savant Power Inverters, allowing for an increased solar capacity. The cabinet and modular battery tray design make installation faster and simpler.

What are the benefits of a low-voltage AC-side cabinet integration?

Low-voltage connection for AC-side cabinet integration, ensuring zero energy loss
Four-in-one Safety Design: "Predict, Prevent, Resist and Improve"
Predict: AI-powered big data analytics for 8-hour advance fault prediction
Prevent: High-precision detection provides 30-minute early warnings.

How many energy storage units can be connected together?

Stackable and lightweight, installers can effortlessly connect up to four units together for additional energy storage. Available in three sizes including 9 kWh, 13.5 kWh, and 18 kWh to meet an installation company's growing customer energy demands. Operating modes: back-up mode, self-use mode, time-of-use mode and custom modes.

Why should you choose a battery based energy storage system?

By sourcing batteries separately, users can expand their energy storage capacity as needed without overhauling the entire system. This scalability makes it an ideal solution for both residential and light commercial

applications, future-proofing investment and enabling smart energy management.

What is smart energy storage?

Standardized Smart Energy Storage with Zero Capacity Loss All-In-One integrated design, 1.76㎡ footprint, saving more than 30% of floor space compared to split type Low-voltage connection for AC-side cabinet integration, ensuring zero energy loss Four-in-one Safety Design: "Predict, Prevent, Resist and Improve"
