

## SolarTech Power Solutions

# 30 degree solar energy storage integrated machine

*LiFePO<sub>4</sub> Battery, safety*

*Wide temperature: -20~55°C*

*Modular design, easy to expand*

*The heating function is optional*

*Intelligent BMS*

*Cycle Life: ≥ 6000*

*Warranty: 10 years*

## Overview

---

This product consists of a photovoltaic array composed of solar cell modules, a photovoltaic reverse control integrated machine, an energy storage lithium iron phosphate battery pack, a distribution unit, a monitoring host platform, a load, and a power grid. What is a hybrid solar inverter & lithium battery storage system?

Seamlessly combining a hybrid solar inverter and lithium battery storage, it provides a reliable, scalable, and cost-effective way to harness the power of the sun. With its modular design, this stackable energy storage system is perfect for scalable applications, providing a flexible, efficient, and reliable energy management solution.

How many MPPTs can a solar power system support?

Boasting a maximum charge/discharge current of 70A+70A across two independently controlled battery ports, it has four integrated MPPTs with a string current capacity of up to 20A, ensuring unmatched power delivery. It supports six parallel PV+ energy storage systems with a maximum of 180kW.

How does a solar energy storage system work?

Equipped with advanced monitoring and control features, this integrated energy storage system provides intelligent energy management that optimizes energy use based on real-time conditions. With reliable lithium batteries, it ensures that stored energy remains available during periods of low sunlight or grid outages.

What is the mpsg-D series ESS all-in-one stackable energy storage system?

The MPSG-D Series ESS all-in-one stackable energy storage system is a highly efficient, modular, and integrated energy solution that meets the needs of both residential and commercial users.

How much power does a MPPT solar controller have?

Built-in MPPT solar controller, max charge current 160A; ♦ Max 6200W & 6500W & 10200W solar input power respectively; ♦ Wide PV input voltage range 4200W/6200W (60-450VDC), 10200W (90-450VDC)
