

## SolarTech Power Solutions

# 4680 Assembled Outdoor Power Supply

### Power Conversion System

- Single-stage three-level modularization
- Multi-branch input to reduce battery series and parallels connection

## Overview

---

How much power does a 4680w solar panel provide?

[Power generation 21.5KWH + Storage 15.36KWH] The power of 21.5KWh per day under 4 hours full sunshine by the 4680W solar panel system, very suitable for home, shed, cabin, farm or other energy backup, and it will provide enough power for portable ac, air condition, TV, refrigerator, coffee maker, microwave and other AC 110V devices.

What is a 4680 battery?

The so-called 4680 battery refers to a cylindrical battery with a diameter of 46 mm and a height of 80 mm, which was officially announced by Tesla on Battery Day in 2020, and officially began mass production and loading of vehicles this year, and is one of the development directions of major battery manufacturers in the future.

Which manufacturers are launching a 4680 battery production line?

CATL, EVE, Envision AESC and other domestic manufacturers have won a lot of 4680 battery orders, LG New Energy, Panasonic, Samsung SDI, and other foreign leaders are also stepping up the layout of the 4680 battery production line.

What is the difference between 21700 and 4680 battery?

Compared with 21700, 4680 battery has achieved a new breakthrough in terms of specifications, cost, safety, and service life: the driving range has been increased by 16%, the charging and discharging power has been increased by 6 times, the capacity has been increased by 5 times, and the kilowatt-hour cost can be reduced by 14%.

How does a Tesla 4680 battery work?

The Tesla 4680 battery innovatively removes the heat-producing tab from the battery, which is the Tabless 4680 cells. The head of Tesla's battery team said

that this technology is to fold the pole tab into a tabless pole. Compared with the battery with the pole tab, the flow distance will be shorter, and there is no problem of overheating.

Is high Nickel ternary a good choice for 4680 batteries?

This point and Tesla and Ganfeng Lithium Company signed a three-year lithium hydroxide contract at the beginning of the month, plus high nickel ternary is also consistent, but this does not mean that high nickel ternary is the only choice for 4680 batteries.
