55a lithium battery pack

Overview

What is Mighty Max battery ml55-12li?

Buy now Mighty Max Battery ML55-12LI - 12 Volt 55 AH Deep Cycle Lithium Iron Phosphate (LiFePO₄) Rechargeable and Maintenance Free Battery. Mighty Max Battery is the name you can trust for all your SLA, AGM, LiFePO, and Power Sport batteries.

How many cycles can a lithium battery last?

Up to 80% capacity for 2,000 cycles. Includes an active BMS (Battery Management System) that handles cell balancing, low voltage cutoff, high voltage cutoff, short circuit protection and temperature protection. Lithium Iron Phosphate: the safest lithium battery chemistry.

What is the safest lithium battery chemistry?

Lithium Iron Phosphate: the safest lithium battery chemistry. Generates significantly less heat the other lithium chemitries, such as Lithium Ion found in many cell phones. No thermal Runaway: Dakota lithium cells are extremely stable and do not produce the oxygen needed to aid thermal runaway.
