

**SolarTech Power Solutions**

**60v 50A to 220v inverter can be  
used for several hours**

## Overview

---

What voltage does a 60V Inverter Supply?

The standard output voltage is 230 Volt, 50Hz with a pure sine wave. This means that this inverter supplies the same type of voltage as the wall socket. This allows any electrical device to work on it. What should you be aware of?

When choosing the right 60V inverter, these are the three most important points to consider::

Can a single phase inverter output 240V 60Hz?

These single phase inverters can be programmed to output 240V 60Hz for North American applications. Couple with an Autotransformer to do neutral forming for 120/240V split phase applications. We can also stack these inverters in three phase configurations to do 230V/400V WYE (50Hz or 60Hz).

Why should you choose a pure sine wave power inverter?

Choosing Pure Sine Wave Power Inverter to Bring a Wireless and Smooth Electronic Experience! **CLEANER ELECTRICITY:** Unlike modified sine wave inverters, this 6000W inverter is a pure sine wave, capable of producing cleaner, smoother, and more reliable electricity to operate tools, fans, lights, and other electronics without interference.

What is a swp5000-da60 converter?

The SWP5000-DA60 is a 60V to 230V converter from 5000W with a pure sine wave, displays, outlets, terminal block and provided with battery protection. The inverters on this page work with a DC voltage of 60 Volt and provide 230V AC output voltage with a pure sine wave.

What makes a good inverter?

The durable aluminum housing protects the inverter from drops and bumps. **[Material]:** Large and durable aluminum alloy shell provides advanced anti-

drop and anti-collision protection. Smart cooling fans help reduce heat and prevent shortages. Some of these items ship sooner than the others.

What protection does the inverter offer?

[Protect your device]: Includes short circuit protection, input overvoltage/undervoltage protection, output short circuit, overload, overcurrent, and overtemperature protection. The durable aluminum housing protects the inverter from drops and bumps.
