

## SolarTech Power Solutions

# 9KW Inverter

## Overview

---

Which solar power inverter is right for You?

The Dura-i Hybrid Inverter solar power inverter is the ultimate choice for homeowners seeking efficient, reliable, and cost-effective energy solutions. The Dura-i is available in a range of sizes depending on your set up including 3.6kW, 4.6kW, 5kW, and 6kW.

What is a Dura-I solar inverter?

The Dura-i is designed for high-performing solar PV systems, enabling homeowners to generate up to 9kW of solar energy, maximising savings and sustainability. In case of a power outage, the Dura-i hybrid solar inverter has emergency power supply, which activates within just 20 milliseconds, ensuring uninterrupted energy for your home.

What is a hybrid solar inverter?

An inverter is the smart computer of your home energy system, managing the flow of electricity between your solar panel kits, home appliances, and battery storage systems. This ensures your hybrid solar inverter keeps your energy usage efficient, reducing reliance on the grid and lowering costs.

What type of inverter does General Electric use?

The 9.6kW General Electric (GEH9.6) inverter is a single phase, hybrid inverter that features up to 4 MPPTs. Designed for residential use, this hybrid inverter is compatible with high voltage (80-495V) batteries allowing for homeowners to maximize.

How long does a solar inverter last?

Because MPPT and voltage management are handled separately for each module by the power optimizer, the inverter is only responsible for DC to AC inversion. Consequently, it is a less complicated, more cost effective, more reliable solar inverter with a standard 12 year warranty, extendable to 20 or

25 years.

Which SolarEdge Solar inverter models are available?

The following SolarEdge solar inverter models are available: 4kW\*, 5kW, 6kW, 7kW, 8kW, 9kW, 10kW, 12.5kW, 15kW, 16kW, 17kW, 25kW, 27.6kW, 33.3kW\*  
No results found. Try another keyword, or select the language/document type you are looking for. The SolarEdge DC-AC PV inverter is specifically designed to work with the SolarEdge power optimizers.
