

SolarTech Power Solutions

Albania outdoor power supplier configuration

Overview

Does Albania have a power supply security problem?

Albania is a net importer of electricity; power supply security is a challenge. Albania's domestic generation is almost entirely dependent on hydropower since the country's only thermal power plant is currently inoperable.

Does Albania have a national strategy of energy?

Albania's Ministry of Energy recently launched an auction round for the construction of the country's first large-scale solar plant. The country also has a National Strategy of Energy, which aims to develop an effective energy sector that guarantees secur.

Which power plugs are compatible in Albania?

Select your country of residence, to check the compatibility of your power plugs in Albania. In Albania, power plugs and sockets (outlets) of type C and type F are used. The standard voltage is 230 V at a frequency of 50 Hz. For more information, select the country you live in at the top of this page.

What is the power transmission system in Albania?

Albania's electricity transmission system consists of lines with a voltage level of 110 kV, 150 kV, 220 kV and 400 kV, the respective substations at these voltage levels, and all equipment, the functions of which are included in the power transmission electrical.

Does Albania have a hydro power plant?

Albania's domestic generation is almost entirely dependent on hydropower since the country's only thermal power plant is currently inoperable. The total installed generation capacity has increased over the last few years because of new private investments in hydro power plants and more recently in small solar farms.

What type of power sockets are available in Albania?

The power sockets in Albania are of type C and F. The standard voltage is 230 V at a frequency of 50 Hz. Check your need for a power plug (travel) adapter in Albania.
