

SolarTech Power Solutions

Algeria Smart Energy Storage Power Station Project

Overview

Spanning over 400 hectares with a capacity of 200 megawatts (MW), the facility is set to transform the region's electricity supply, particularly for its growing mining and industrial sectors. What is Algeria doing with solar energy?

Building on the Solar 2,000 MW and Solar 1,000 MW programs launched by Algeria's state-owned company Sonelgaz, which include a wide range of solar energy initiatives, the government aims to diversify its revenue streams and reduce reliance on natural gas, which is currently primarily used for power generation in the country.

When will a 300 MW solar power plant be built in Algeria?

The state-owned China State Construction Engineering Corporation (CSCEC) began building a 300 MW solar power plant in Algeria's Oued Province in March 2024 as part of the Solar 1,000 MW program. The project is slated for completion by late 2025 or early 2026.

Who is supplying Solar PV modules for Sonelgaz Algeria solar PV Park?

PowerChina Zhongnan Engineering was selected to render engineering procurement construction services for the solar PV power project. Yingli Green Energy Holding was selected as the supplier of PV modules for the project. For more details on Sonelgaz Algeria Solar PV Park, [buy the profile here](#).

What is Algeria's first photovoltaic project?

Among them, the 233-megawatt photovoltaic project completed in 2016 was Algeria's first new energy project and also the first large-scale grid-connected photovoltaic power station project in Africa. It was honored with the Luban Prize for Overseas Projects in 2018-2019.

How many megawatts a photovoltaic system will be built in Algeria?

The two photovoltaic projects have a capacity of 220 megawatts and 150 megawatts, respectively, and will be constructed by POWERCHINA using an

EPC model. The two projects are parts of the 15 gigawatts photovoltaic network planned and constructed for Algeria by 2035.

How many projects has powerchina done in Algeria?

They are significant milestones for the development of Algeria's new energy industry. Over these years, POWERCHINA has undertaken a total of 26 projects in Algeria, covering a wide range of areas including dams, irrigation, municipal infrastructure, civil engineering, grain storage, and new energy.
