

## SolarTech Power Solutions

# All-black double-glass solar panels

## Overview

---

This glass-on-glass construction enables dual-sided power generation, capturing direct sunlight on the front surface while harvesting reflected light through the rear. The tempered glass layers enhance durability, weather resistance, and PID-free performance.

This glass-on-glass construction enables dual-sided power generation, capturing direct sunlight on the front surface while harvesting reflected light through the rear. The tempered glass layers enhance durability, weather resistance, and PID-free performance.

A high-efficiency photovoltaic module featuring 96 monocrystalline cells in a sleek all-black aesthetic. This glass-on-glass construction enables dual-sided power generation, capturing direct sunlight on the front surface while harvesting reflected light through the rear. The tempered glass layers.

Standard panels quickly fail in harsh conditions. Our CLM-130M-36 small double glass solar panels thrive where others don't—coastal areas, high mountains, and desert regions. Withstands 160mph winds, heavy snow loads (7200Pa), and extreme temperatures (-40°C to +85°C). Dual glass design prevents.

The SP635M-78H module combines the S-TOPCo 2.0 technology with 182mm half-cut cells to ensure impressive efficiency levels (up to 22.72%) ranging from 605W to 635W, and maximize the energy yield. The bifacial design of the SP635M-78H module enables the absorption of light from both the front and.

Vesta Ultra Black defines superior aesthetics modules in creating full-screen elegant rooftop. VSUN provides customized products and services to support diversified installation solutions. Vesta Ultra Black meets the needs of scenarios, which brings excellent power generation performance. Vesta.

We are SUNKET, based in California, USA. We provide high-quality solar products and solutions for utilities, commercial, and residential sectors. As an authorized MEGAREVO distributor, we ensure fast delivery of reliable inverters from our local warehouse.

We present our LONGI LR7-54HJBB 490~505M All Black Double Glass Premium solar panel — a high-efficiency module with a fully black finish that enhances the aesthetic of any installation. Thanks to its double glass design, BC-cell technology, and Class A fire safety certification, it offers a unique.
