Angola base station power supply business

Overview

What are the options for power generation in Angola?

Angola has numerous options for the generation of power. The present document considers the key options - hydro, thermal and new renewable- individually and combined in scenarios that meet the required levels of safety and redundancy.

How many power plants are in Angola?

Generation Capacity With a current installed capacity of approximately 5,01 GW, three power stations primarily power Angola; Laúca (1000 MW), Capanda (520 MW) and Cambambe (960 MW), as hydroelectric plants generate nearly two-thirds of Angola's electricity. Meanwhile, the Luanda OCGT power plant is the only operating gas turbine in the country.

How much power will be available in Angola?

In the Southern border, the Baynes hydropower project will move forward until 2025 with a total power between 400 and 600 MW, of which we can assume 200 to 300 MW will be available for Angola. Eastern System.

How is Angola generating power?

The main focus of Angola's power generation programme is on expanding its hydroelectric potential, which is already the country's main source of power. The most recent hydro project is the massive 2.07-GW Laúca hydroelectric power station, which reached its full capacity in September 2023.

Which countries supply power equipment to Angola?

In addition, European companies (Germany, Portugal) supply equipment to the energy sector. Portuguese, Brazilian, and Chinese construction companies generally lead in project construction. Electric power-related equipment (HTS 8411) exported to Angola in 2022, was valued at US\$ 14.8 million.

Will Angola and Namibia build a hydroelectric plant?

Namibia and Angola are set for a joint construction of the Baynes Dam hydroelectric plant with an installed capacity of 600 MW. The power production would be shared, 300 MW for each country; Power Africa is supporting the project. An additional connection in the north of Angola with the Democratic Republic of Congo is also being considered.
