## Overview

---

The government announced that the 27 submitted proposals from 15 companies call for an investment of more than USD 1 billion (EUR 860m). The projects are for capacities at critical locations across the Metropolitan Area of Buenos Aires (AMBA). Why is Buenos Aires investing \$540 million in energy storage?

The \$540 million investment in energy storage isn't just about keeping the lights on in Buenos Aires. It's a strategic bet on a more flexible, reliable, and sustainable energy future for Argentina – and potentially, a blueprint for the entire region. What role will energy storage play in your country's energy transition?

.

What is Argentina's first energy storage tender?

(USD 1.0 = EUR 0.860) Loading. Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

How much energy does Argentina need for a battery energy storage system?

Argentina's first energy storage tender has lured proposals for 1,347 MW of combined capacity, indicating a high investor interest that significantly exceeded the 500-MW target. Battery energy storage systems (BESS) License: CC0 1.0 Universal (CC0 1.0) Public Domain Dedication.

Will Argentina integrate new electricity storage infrastructure into urban distribution networks?

This national and international open call, part of Resolution SE 67/2025, marks Argentina's first large-scale effort to integrate new electricity storage infrastructure into urban distribution networks.

Is Argentina's \$540 million bet on battery storage a blueprint for grid resilience?

Argentina's \$540 Million Bet on Battery Storage: A Blueprint for Grid Resilience?

Over 667 megawatts of energy storage capacity are headed for the Buenos Aires Metropolitan Area (AMBA), representing an investment exceeding half a billion US dollars.
