## Overview

---

How can Sestra people help with energy recruitment in Australia?

Navigating the dynamic energy recruitment landscape in Australia requires a partner that understands its complexities and champions its people. At Sestra People, we connect skilled energy professionals with exciting energy jobs in Sydney and across the nation, from renewables to traditional sectors.

What is Hays energy recruitment agency?

Hays energy recruitment agency secures candidates in Australia for the renewable energy sector. Register a vacancy now!.

Why should you work with energy professionals in Australia?

The energy sector is critical and often fast-moving, with project deadlines and operational demands. We focus on efficiently connecting the right energy professionals with the right energy jobs in Australia, so your projects stay on track, but we never compromise on the quality, safety consciousness, or technical fit of the match.

What is a people-first approach to energy recruitment?

Our people-first approach to energy sector recruitment ensures we find the right fit for your unique expertise and ambition. How We Do Energy Recruitment Differently (Hint: It's About Fuelling Progress!) We know "energy recruitment" can sometimes feel like it's just about projects and infrastructure. That's not our complete view.

How can we help the energy industry?

Here's how we can help: Access Exciting Energy Opportunities: We have our finger on the pulse of the energy job market, often hearing about roles in renewables, transmission, commercial operations, ESG, and more, sometimes before they're widely advertised.

What roles do you have in the energy sector?

We frequently place great people in roles like these, drawing from our understanding of the sector's needs: Driving new energy infrastructure (e.g., Project Development Manager, Construction Manager, Civil/Electrical/Mechanical Engineer, Commissioning Engineer, HSE Engineer, Land Manager, Environmental Manager).
