# **Azerbaijan sodium sulfur battery energy storage power station**

## Overview

---

“AzerEnerji” is establishing battery storage systems (BESS) with a total capacity of 250 megawatts and an energy storage capacity of 500 megawatt-hours on the territory of the 500-kilovolt “Absheron” substation near the capital and the 220-kilovolt “Aghdash”.

“AzerEnerji” is establishing battery storage systems (BESS) with a total capacity of 250 megawatts and an energy storage capacity of 500 megawatt-hours on the territory of the 500-kilovolt “Absheron” substation near the capital and the 220-kilovolt “Aghdash”.

Construction is underway on some of Central Asia’s largest battery energy storage projects, while financing has been secured for what is described as the region’s first integrated wind and storage facility. State-owned electricity generation and transmission company AzerEnergy is building a 250.

Another transformative initiative is the planned introduction of a Battery Energy Storage System (BESS) to store "green" energy. According to Deputy Minister of Energy Elnur Soltanov, efforts are currently underway to select a contractor for constructing the country’s first industrial-scale BESS.

The 500-kilovolt “Absheron” and the 220-kilovolt “Aghdash” substations in Azerbaijan will reportedly have a capacity of 250 megawatts and a storage volume of 500 megawatt-hours / Courtesy Azerbaijan has ushered in a new era in its energy sector with the launch of large-scale Battery Energy Storage.

Large-scale Battery Storage Systems (BESS) have been initiated for the rapid development of renewable energy sources (RES) in the country. Azerenergy is creating Battery Storage Systems with a total capacity of 250 megawatts and 500 megawatt-hours at the 500-kilovolt Absheron substation near the.

BAKU, Sept. 4 (Xinhua) -- Azerbaijan has launched the construction of large battery energy storage systems to boost the growth of renewable energy, the state energy company AzerEnerji said on Thursday. The systems are the largest in the Commonwealth of Independent States, of which Azerbaijan is a.

“AzerEnerji” is establishing battery storage systems (BESS) with a total capacity of 250 megawatts and an energy storage capacity of 500 megawatt-hours on the territory of the 500-kilovolt “Absheron” substation near the capital and the 220-kilovolt “Aghdash” substation located in the central part.
