Base station single battery price

Overview

Single Battery System: \$695 (First year membership of \$225/year is waived)
Dual Battery System: \$995 (First year membership of \$345/year is waived) If you elect to get the generator recharge port, a \$1,000 install fee will be added to your invoice on the day of installation. How much does a base battery cost?

Based on when members signed up for Base, they may be on an older version of pricing that is broken down differently. Single Battery System: \$695 (First year membership of \$225/year is waived) Dual Battery System: \$995 (First year membership of \$345/year is waived).

How long does a base battery last?

Even with the single Base battery and typical home power usage, Base battery holders are protected for 8 hours. No gimmicks, no hidden fees - just straightforward, affordable power. Bills are viewable anytime through the Base Power mobile app (iOS and Android). Set up autopay, track your usage, and manage your account all in one place.

How much does a battery system cost?

Single Battery System: \$695 (First year membership of \$225/year is waived)
Dual Battery System: \$995 (First year membership of \$345/year is waived)
Note: any credits offered during signup will be applied to electricity billing, and will not reduce the cost of the upfront installation fee.

How much does a base generator cost?

Peace of mind for any outage—at a price that makes sense. Keep your power on when the grid goes down. The Base system packs up to 50 KWh of capacity—enough to power your home for up to 48 hours with reduced energy consumption. Most standby generators can cost upwards of \$15,000—Base is 95% more affordable.

What is a base battery & how does it work?

Base batteries integrate directly with your solar system, storing excess energy during the day and providing reliable backup when the grid goes down. This means you can maximize your solar investment, lower reliance on the utility, and keep your home powered through outages without interruption. What is Base?

How does it work?

.

How does a base station work?

Base Stations Blanket your home with security. The Base Station is the brains of your system. When one sensor or camera detects danger, it sends a signal to the Base Station, which sounds the siren and notifies you immediately. If it's unplugged or the power goes out, the 24-hour backup battery keeps you covered.
