Battery energy storage project in Russia

Overview

Will Russian energy storage firm Reenera invest in EV batteries?

June 23, 2023: Russian energy storage firm Reenera says a special investment contract providing incentives and financial backing for domestic production of batteries for EVs and stationary storage systems was signed at the St Petersburg International Economic Forum on June 16.

What is the biggest battery storage project in Europe?

The Minety battery storage project located in Wiltshire, UK is the biggest battery storage development in Europe. Image courtesy of Penso Power. The initial 100MW project is backed by Chinese investment. The Minety battery storage project is expected to commence operations by the end of 2020.

Will Russia produce a prototype battery by the middle of the year?

The move follows Russia's claim last month that it will have produced prototype batteries by the middle of the year.

Will EV batteries be re-used in 2025?

Deputy prime minister and trade and industry minister Denis Manturov said the plant will span nearly 24 hectares and the first batteries will roll off the assembly line in 2025. Reenera said it also plans to develop plans for used EV batteries to be re-used in stationary storage systems, such as EV charging stations.
