Battery station cabinet OEM

Overview

What does a battery swapping cabinet do?

The battery swapping cabinet also monitors BMS faults and whether the environment is abnormal in real time.

What is bitean intelligent battery swapping cabinet?

BITEAN intelligent battery swapping cabinet is designed to solve the slow charging and charging safety problems of low-speed electric vehicle , and solve the transportation capacity problem for people who use electric vehicles frequently such as takeaway deliverymen.

What is a LiFePO4 battery?

The liquid-cooled PACK consists of standard 280Ah lithium iron phosphate (LiFePO4) battery cells of series. The energy storage BMS solution supports two modes: a three-level architecture (BMU sub-control module + BCU main control module + BSU master control module).
