Belize Outdoor Energy Storage Power Station

Overview

Picture this: a small Central American nation, better known for pristine beaches than power grids, quietly making history. In 2025, Belize flipped the switch on its first energy storage power station - a 30MW lithium-ion battery system that's turning heads from Cancún to Copenhagen.

Picture this: a small Central American nation, better known for pristine beaches than power grids, quietly making history. In 2025, Belize flipped the switch on its first energy storage power station - a 30MW lithium-ion battery system that's turning heads from Cancún to Copenhagen.

Washington, D.C., February 5, 2025 - The Government of Belize, in partnership with the World Bank and the Government of Canada, announced the launch of a new energy project aimed at strengthening the country's power supply and improving the reliability of its electricity services. The \$58.4 million.

Belize Electricity Limited (BEL), in partnership with the Government of Belize and with funding from the World Bank, continues to work diligently on deploying a 10 MW Battery Energy Storage System (BESS) in San Pedro Ambergris Caye. The project will be developed at BEL's property behind the BEL.

The new Belize Energy Resilience and Sustainability Project will deploy state-of-the-art battery energy storage systems across four strategic locations in the country, marking a significant step forward in modernizing Belize's energy infrastructure and reducing its dependency on electricity.

In 2025, Belize flipped the switch on its first energy storage power station - a 30MW lithium-ion battery system that's turning heads from Cancún to Copenhagen. Why should you.

Ever wondered why a tiny Caribbean nation like Belize is suddenly buzzing in energy circles?

Spoiler: It's all about their ****energy storage power station policy****. This

article isn't just for energy geeks – it's for: Belize's 2023 National Energy Storage Strategy aims to triple renewable capacity.

The Government of Belize is pushing full steam ahead with its plan to construct a 60-megawatt solar power plant. Last year, the Briceno Administration signed a seventy-seven million U.S. dollars loan agreement with the Kingdom of Saudi Arabia to construct the plant, and an accompanying battery.
