

SolarTech Power Solutions

Boko Island solar power generation for home use

Overview

Can solar power be used in the Pacific region?

While solar power alone may not be able to fulfil all energy requirements in the Pacific region at this point, it can be supplemented by other renewable sources such as onshore wind and hydropower, depending on the unique circumstances of each island.

Are solar panels a good investment for the Pacific Islands?

Today, they have an opportunity to harness these energies more efficiently than ever to help their societies become more resilient and prosper. The low cost of solar panels presents an opportunity for investing in solar energy across the Pacific Islands.

Are solar panels a good investment in the Solomon Islands?

In the Solomon Islands, the consumption of electricity per capita is so low – approximately 160 times less than the average used in the top ten countries – that just a few solar panels for a household can be life-changing.
