Bulgaria energy storage low temperature lithium battery factory

Overview

International Power Supply has inaugurated Factory X1 near Sofia, marking Bulgaria's first BESS gigafactory with an initial 3 GWh annual capacity, rising to 5 GWh. The plant will deliver 8.2 MWh X-BESS modules using over 70% European components.

International Power Supply has inaugurated Factory X1 near Sofia, marking Bulgaria's first BESS gigafactory with an initial 3 GWh annual capacity, rising to 5 GWh. The plant will deliver 8.2 MWh X-BESS modules using over 70% European components. International Power Supply (IPS) has officially.

The manufacturing facility has launched with 3 GWh annual capacity, set to expand to 5 GWh by Q2 2026. International Power Supply (IPS) has officially opened its new battery energy storage system (BESS) manufacturing facility near Sofia, Bulgaria – a site recognized by the European Commission as a.

Bulgaria-based International Power Supply (IPS) is opening a factory for battery energy storage systems, using proprietary technology. The Exeron X-BESS is one of only six strategic projects in the European Union with a designation under the Net Zero Industry Act. Minister of Economy and Industry.

Production has begun at a battery energy storage system (BESS) factory designated as a project of strategic importance by the European Commission (EC) due to its use of local supply chains. An inauguration event was held earlier this month (10 October) for the factory, at Hemus High-Tech Industrial.

Bulgaria has officially inaugurated the largest battery energy storage system (BESS) in the Balkans, boasting a capacity of 496.2 MWh. This groundbreaking facility, located in Lovech, is set to enhance the stability of the national energy grid and support the country's transition to renewable.

International Power Supply (IPS) opened its Factory X1, with a capacity of 3 GWh per year. It is the first gigafactory in Bulgaria for battery energy storage systems (BESS). Recognized by the European Commission as a strategic project for a net zero industry, Factory X1 officially began production.
