

SolarTech Power Solutions

Canadian lead-acid energy storage battery company

Overview

The company produces and exports flooded lead-acid and sealed VRLA (valve-regulated lead acid), AGM (absorbed glass mat) & GEL (gas cel) deep cycle batteries as well as LiFePO4 lithium batteries under the “Rolls” brand for the marine, motive power and renewable energy sectors as well as rail, with notable customers including General Motors, Canadian National Railway, General Electric, and more. What kind of batteries are available in Canada?

Canadian battery supplier offering superior sealed lead-acid, lithium iron phosphate and lead carbon batteries. Battery experts specializing in energy solutions are available to help you find the best batteries for your project. State of the art battery equipment is used to manufacture batteries for consistent quality and fast production.

What is a sealed lead acid battery?

Canbat is constantly developing new battery technologies to meet the demands of the evolving global battery market. Sealed lead-acid batteries are often referred to as valve-regulated lead-acid (VRLA), or simply sealed lead acid (SLA). There are primarily two types of these batteries: AGM and Gel.

Who makes CANBAT batteries?

Canbat is a Canadian battery company specializing in deep cycle and backup applications. Our line of products include sealed lead-acid (SLA), lithium iron phosphate (LiFePO4) and lead-carbon batteries. We also manufacture lithium battery chargers and power converters, primarily used in the RV market.

What percentage of lead-acid batteries are recycled?

In North America, 99.3 percent of lead-acid batteries are recycled and they are the most recycled consumer product in the world. In Canada, lead-acid batteries are recycled at end of life in a closed-loop recycling program where spent batteries are processed and most recycled lead is then sold back to lead battery manufacturers.

What are the top battery companies in Canada in 2025?

Here are the 47 Top Battery Companies In Canada In 2025 and their top employee and leadership contact details: There are several battery companies operating in Canada, including Canadian Energy, NorthStar, and Surrette Battery Company.

Why is Canada a good place to buy a battery?

Canada is one of many countries that takes part in the global battery industry. The country also contributes highly to the development of high-performance batteries. These companies not only produce batteries for energy efficiency but also focus on environmentally friendly production.
