

**SolarTech Power Solutions**

# **China-Africa Solar Water Pump Inverter Customized Manufacturer**

## Overview

---

Can solar pumping inverters provide clean water in Honduras?

The project uses solar pumping inverters to achieve a daily water supply of 40 cubic meters, meeting customer demand. In April 2025, Solartech in collaboration with our Honduras EPC project partner, successfully implemented a 2200W solar water supply system for a local village, bringing sustainable clean water to the community.

What is Solartech solar water supply system?

Solartech solar water supply system provide perfect cost-effective solutions and application products for domestic water in remote areas. Solartech solar water-saving irrigation system help to solve agriculture and forestry irrigation problems. Solartech solar water pumping system help to solve the problem of land desertification.

How solar water pumping system can help solve land desertification?

Solartech solar water pumping system help to solve the problem of land desertification. In April 2025, Solartech in collaboration with our Honduras EPC project partner, successfully implemented a 2200W solar water supply system for a local village, bringing sustainable clean water to the community.

What is solar water conservancy industry?

The solar water conservancy industry technology initiated by Shenzhen Solartech has developed innovative application solutions of new energy based on cost and benefit for global agriculture, animal husbandry and forestry production, ecological restoration, food production, domestic water consumption and improvement of living environment.
