# **Colombia Civilian solar System**

## Overview

---

The Colombian government has launched a new program to help low-income households deploy PV systems. The Colombia solar scheme aims to enable vulnerable households to self-generate basic consumption with PV systems, reduce tax burdens, and add new solar capacity to the.

The Colombian government has launched a new program to help low-income households deploy PV systems. The Colombia solar scheme aims to enable vulnerable households to self-generate basic consumption with PV systems, reduce tax burdens, and add new solar capacity to the.

Colombia will equip more than 1 million low-income households with solar systems to replace subsidies, cut bills and add capacity to the grid. From pv magazine LatAm The Colombian government has launched a new program to help low-income households deploy PV systems. The Colombia solar scheme aims.

This document provides an overview of wind and solar energy in Colombia at the beginning of 2025. Download SEI brief / PDF / 428 KB Vega-Araújo, J., Muñoz Cabré, M., & Gil, M. (2025). Solar, wind power and energy communities in Colombia: 2025 policy overview. SEI brief. Stockholm Environment.

Colombia, which generates nearly 70% of its electricity from renewable sources, has made significant strides in decarbonization over the past few years. However, the country's electricity matrix remains heavily dependent on hydropower. While this has proven critical for economic development thus.

Enel Green Power, for instance, has launched new solar plants in Colombia that collectively add 99.5 MWdc to the country's energy mix. These plants are part of six centrally dispatched solar initiatives now in operation, showcasing Colombia's growing capacity for renewable energy generation. More.

This is why the Climate Investment Funds (CIF) launched its Renewable Energy Integration (REI) Program in 2021 – the world's only dedicated climate investment program that supports developing countries in upgrading and adapting their national energy systems. Colombia was the first country to
