Columbia Energy Storage Station Fire Control System

Overview

What is a walk-in energy storage unit?

WALK-IN ENERGY STORAGE SYSTEM UNIT. A pre-fabricated building that contains energy storage systems. It includes doors that provide walk-in access for personnel to maintain, test and service the equipment, and is typically used in outdoor and mobile energy storage system applications. 1203.2.5 Exhaust ventilation systems.

Do I need explosion control for a walk-in energy storage system?

1206.13.3 Explosion control. Where required by Table 1206.13 or elsewhere in this code, explosion control complying with Section 911 shall be provided for rooms, areas or walk-in energy storage system units containing electrochemical energy storage system technologies.

Are energy storage systems fire-resistance rated?

1206.11.3 Fire-resistance rated construction. Rooms and other indoor areas containing energy storage systems shall be separated from other areas of the building in accordance with Section 1206.14.4 and Chapter 7 of this code. Energy storage systems shall be permitted to be in the same room as the equipment they support.

What is an energy storage cabinet?

ENERGY STORAGE SYSTEM CABINET. A cabinet containing components of the energy storage system that is included in the UL 9540 listing for the system. Personnel are not able to enter the enclosure, other than reaching in to access components for maintenance purposes.

Can a walk-in energy storage system be a fire hazard?

Where approved by the fire code official, rooms, areas and walk-in energy storage system units containing electrochemical energy storage systems that exceed the amounts in Table 1206.12 shall be permitted based on a hazard

mitigation analysis in accordance with Section 1206.5 and large-scale fire testing complying with Section 1206.6.

What is a rechargeable energy storage system?

A rechargeable energy storage system consisting of electro chemical storage batteries, battery chargers, controls and associated electrical equipment designed to provide electrical power to a building.
