

SolarTech Power Solutions

Communication base station energy storage system processing unit

LiFePO₄ Battery,safety

Wide temperature: -20~55°C

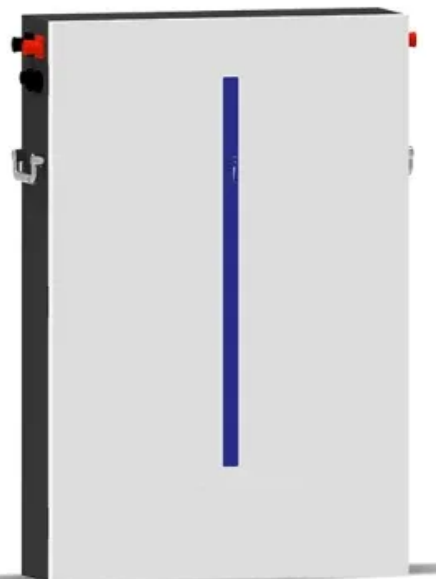

Modular design, easy to expand

Wall-Mounted&Floor-Mounted

Intelligent BMS

Cycle Life: ≥ 6000

Warranty:10 years

Overview

BBU is the core processing unit of the base station system, responsible for key functions such as signal processing and protocol processing, and realizing communication connection with the core network.
