# **Croatia's large emergency energy storage power plant**

## Overview

---

Croatia's first large-scale battery energy storage system (BESS) with 66 MW capacity should be completed and commissioned in 2025, its investor IE Energy told Montel on Thursday.

Croatia's first large-scale battery energy storage system (BESS) with 66 MW capacity should be completed and commissioned in 2025, its investor IE Energy told Montel on Thursday.

The European Bank for Reconstruction and Development (EBRD) is providing a direct equity investment of up to €16.8 million in IE-Energy Projekt, a newly established joint-stock company developing a greenfield battery energy storage system (BESS) and virtual power plant (VPP) in Šibenik, Croatia.

The European Bank for Reconstruction and Development (EBRD) is set to make a direct equity investment of up to €16.8 million in IE-Energy Projekt, a newly formed joint-stock company dedicated to developing a greenfield battery energy storage system (BESS) and a virtual power plant (VPP) in Šibenik.

The European Bank for Reconstruction and Development (EBRD) is providing a direct equity investment of up to 16.8 million euros in IE-Energy Projekt. The European Bank for Reconstruction and Development (EBRD) is providing a direct equity investment of up to 16.8 million euros in IE-Energy Projekt.

A pension fund will join the EBRD and EU Modernisation Fund in investing around €16 million (US\$18.5 million) in a project on Croatia pairing large-scale BESS and a VPP. Development finance institution European Bank for Reconstruction and Development (EBRD) is leading on the investment in IE-Energy.

The European Bank for Reconstruction and Development (EBRD) said on October 22 it will invest €16.8mn in Croatia's first large-scale battery energy storage system and virtual power plant, taking its first equity stake in a standalone merchant storage project. The EBRD's direct equity investment.

The European Bank for Reconstruction and Development (EBRD) said it will make a direct equity investment of up to EUR 16.8 million (USD 19.5m) in IE-Energy Projekt d.d., a newly established joint-stock company developing Croatia's first grid-scale battery energy storage and virtual power plant.
