A commercial battery energy storage system in Cyprus can store solar energy, reduce grid reliance, support net billing, and even protect against blackouts. In this comprehensive guide, we at CGP Solar explain why BESS is becoming essential for businesses in Cyprus, how it works, who needs it.

In May 2025, Cyprus brought its first significant battery energy storage system (BESS) online. The project marks a major step toward enhancing the country's energy infrastructure, aligning with its goals for renewable energy integration and grid stability. The BESS project is a partnership between.
