

SolarTech Power Solutions

Czech solar sun room inverter

Overview

What is a solar inverter?

The solar inverter or inverter converts direct current into alternating current, thanks to which the energy from the photovoltaic system can only be used. We offer classic or hybrid (mains and battery) inverters with different performance and characteristics.

How does a solar inverter work?

The inverter converts direct current into alternating current, thanks to which the energy from the photovoltaic system can only be used. It monitors the performance of solar panels, important network parameters and values, ensuring high yields and safety of the photovoltaic system.

What is a Deye Sun 50k asymmetric inverter?

NEW - DEYE SUN 50K is a hybrid asymmetric inverter with two inputs for high voltage batteries. The inverter ensures safe and reliable production of photovoltaic energy. GoodWe GW6.5K-ET Plus three-phase hybrid voltage inverter with two MPPTs, Wi-Fi monitoring system. Compatible with high voltage batteries.
