.

Our Outdoor Power Supply with 12V and 24V DC output is specifically designed for high-performance LED lighting applications, offering reliable and efficient power conversion. Encased in an IP67-rated waterproof and dustproof enclosure, this 277V Driver is suitable for both indoor and outdoor.

AC (Alternating Current) is the power that comes from your wall outlets, while DC (Direct Current) powers most electronic devices, including LEDs, sensors, and other circuit components. An AC-DC power supply converts the AC power from the mains into a usable DC form. Why Choose a 12V DC Power.

Altronix WayPoint102 DC Outdoor Power Supply/Charger provides 12VDC and is designed to be conveniently located where power is required. It also offers a suite of features that includes output disconnect, overvoltage protection, and low power disconnect which prevents deep discharge of stand-by.

DC 12V Waterproof 60W Power Supply is useful and flexible units to help

outdoor electrical devices easily get stable DC power under harsh environments. Continuous 60W output value, 4 kVac isolation, complete waterproof protections, and wide range operating temperature makes them perfect for outdoor.

DC outdoor power supply DCOPS-1500 from Transtector, is a high efficiency DC power source that accepts a wide AC input voltage range and delivers up to 1500 W maximum output power. The robust design provides environmental protection that allows for use in harsh outdoor environments, and flexible.
