Djibouti Solar System Battery Plant

Overview

GreenYellow, a prominent French renewable energy company, has signed a public-private partnership with the Djibouti government to develop a 25 MW solar power plant in the sun-drenched Grand Bara desert. Why is Djibouti constructing a solar farm?

Djibouti's \$390 million solar farm is under construction in southern Djibouti as a result of a public-private partnership between Djibouti's Ministry of Energy and Natural Resources and Green Enesys, a German renewable energy firm. Construction began in 2018 after \$50 million in funding was secured by the World Bank and other financiers.

Is AMEA power signing a long-term PPA with Djibouti?

The PPA being signed. Image: Amea Power. UAE-based renewable energy developer AMEA Power has signed a long-term PPA with the national utility of Djibouti for a 25MW solar PV plus battery storage unit. AMEA Power announced the signing of the power purchase agreement (PPA) with Electricité de Djibouti (EDD) today (29 August).

Will AMEA develop a battery storage project in the Grand Bara Desert?

AMEA will develop the project in the Grand Bara desert region under a build-own-operate and transfer (BOOT) model. It hasn't yet revealed the size in MW or MWh of the battery storage portion but said the project is expected to generate 55GWh of energy annually.
