# **Does Portugal have 5G base stations with hybrid energy sources**

## Overview

---

Which operator has the most 5G stations in Portugal?

In Portugal, MEO is the operator that has the most 5G stations spread across the municipalities, totalling 304 stations, in a total of 308 municipalities in Portugal. NOS is present with 5G stations in 276 municipalities and Vodafone in 268 municipalities.

Will 5G be a catalyst for the smart grid in Portugal?

With the aim of leading the energy transition, E-REDES has adopted 5G as an important catalyst for the smart grid in Portugal, ensuring that E-REDES' critical installations have resilient, efficient and secure communications.

What is Portugal doing to promote 5G technology?

Innovation and Research Initiatives: Portugal has also been promoting innovation and research initiatives to support the development and deployment of 5G technologies across various sectors. Collaborative projects involving academia, industry, and government entities are encouraged to explore new use cases and applications of 5G.

How many 5G base stations are there?

According to information reported to ANACOM, in the second trimester of the year, "the number of base stations installed in the national territory with 5G technology amounted to 7,831 stations, distributed over 308 municipalities and 1,833 parishes".

Does Vodafone have a 5G network in Portugal?

Vodafone Portugal: Vodafone has been a key player in the 5G roll-out in Portugal and has conducted various trials and pilot projects for SA 5G. The company is committed to advancing its 5G infrastructure to support SA capabilities.

How will 5G change the telecommunications landscape in Portugal?

Future Prospects: As 5G technology continues to evolve, network and spectrum sharing will likely play an increasingly important role in the telecommunications landscape in Portugal. ANACOM is expected to continue supporting sharing initiatives and updating the regulatory framework to reflect new developments and best practices.
