Glass-glass solar modules (bifacial modules) increase energy production by approximately 2% to 5% compared to traditional glass-backsheet modules, thanks to their ability to capture light from both sides. They are particularly suitable for high-reflectivity environments, such as white roofs or.

Higon has received certifications for Quality Management System (ISO 9001:2015), Environment Management System (ISO 14001:2015) and Occupational Health and Safety Management System (ISO45001:2018) from both DNV GL and GZCC. Each solar PV cell string must be tested by EL machine to ensure every.

Ningbo Raytech New Energy Materials Co., Ltd. is a comprehensive manufacturing enterprise integrating R&D, engineering, manufacturing, sales and after-sale services based on the concept of “New Energy and New Materials”. Headquartered in Hangzhou Bay New Zone, Ningbo City, Zhejiang Province, China.

China dominates global dual glass solar panel manufacturing, with concentrated industrial clusters offering competitive advantages. Anhui province emerges as a key hub, hosting suppliers like Sunway Solar, Sunpal Energy, and Lovsun Solar. These manufacturers leverage regional supply chain.

SunMr, founded in 2008, has made remarkable progress in double-glass solar panels. SunMr has a factory of 80,000 square meters and four modern solar panel assembly lines with an annual production capacity of 5GW, a yearly R&D investment of 20 million US dollars, and more than 100 invention patents.

SMBB technology reduce the distance between busbars and finger grid line which is benefit to power increase. Global,Tier 1 bankable brand,with independently certified advanced automated manufacturing. More power output in weak light condition, such as haze, cloudy, and early morning. Warranted.
