

SolarTech Power Solutions

East Timor Energy Storage Power Station General Contractor

Overview

Will East Timor retire its diesel power plants?

East Timor Solar Plant: East Timor plans to retire its diesel power plants and shift to renewable energy sources, starting with the construction of its first large solar plant in 2026. The project aims to reduce expensive diesel imports and pave the way for a more sustainable energy future for the nation.

Will East Timor's first solar power plant be built in 2026?

During his nine years as a Reuters correspondent, he has attempted to lend a global perspective to small-town issues. East Timor expects the construction of its first large solar power plant to begin in 2026 and become operational months later, the state utility's chair told Reuters, helping it slash expensive diesel imports.

What is East Timor doing to boost power?

East Timor has also issued rights to mine gold to joint ventures between Timorese companies and Australian miners, and is exploring onshore natural gas in central and eastern Timor, which could further boost demand for power.

Will EDTL's solar power plant help Timor-Leste slash imports of diesel?

EDTL Chairman Marito Ferreira said the solar plant will help Southeast Asia's poorest nation, also known as Timor-Leste, slash expensive imports of diesel, which almost entirely fuel its power grid currently, and reduce its fiscal burden.
