Energy Storage Grid DC Coupling

✓ IP65/IP55 OUTDOOR CABINET

✓ WATERPROOF OUTDOOR CABINET

✓ 42U/27U

✓ OUTDOOR BATTERY CABINET

Overview

DC coupling is a technique used in renewable energy systems to connect solar photovoltaic (PV) panels directly to the energy storage system (ESS). In this configuration, the DC power generated by the solar panels is fed directly into the ESS without the need for an intermediate inverter.
