Energy Storage Product Inventory

Overview

What is the European energy inventory storage dataset based on?

Disclaimer: The European Energy Inventory Storage dataset is mainly based on public data and data from Wood Mackenzie. Wood Mackenzie Limited, subject to any additional data modifications and/or input provided by the EC or any of its authorised 3rd party contributor. Last update: 15/10/2025.

Do investors underestimate the value of energy storage?

While energy storage is already being deployed to support grids across major power markets, new McKinsey analysis suggests investors often underestimate the value of energy storage in their business cases.

What resources are available for energy storage?

The following resources provide information on a broad range of storage technologies. General Battery Storage, ARPA-E's Duration Addition to electricitY Storage (DAYS), HydroWIREs (Water Innovation for a Resilient Electricity System) Initiative.

What is the US energy storage monitor?

The US Energy Storage Monitor is offered quarterly in two versions- the executive summary and the full report. The executive summary is free, and provides a bird's eye view of the U.S. energy storage market and the trends shaping it.

How much money is invested in battery energy storage in 2022?

Global investment in battery energy storage exceeded USD 20 billion in 2022, predominantly in grid-scale deployment, which represented more than 65% of total spending in 2022.

How do I evaluate potential revenue streams from energy storage assets?

Evaluating potential revenue streams from flexible assets, such as energy storage systems, is not simple. Investors need to consider the various value pools available to a storage asset, including wholesale, grid services, and capacity markets, as well as the inherent volatility of the prices of each (see sidebar, “Glossary”).
