

**SolarTech Power Solutions**

# **Energy Storage Professional Training Program**

## Overview

---

By taking the Energy Storage training by Enoinstitute, you will learn about the concept of energy, how to store energy, types of energy-storing devices, the history of energy storage systems, the development of energy storage by 2050, and long-term/short-term storage. What is energy storage training?

By taking the Energy Storage training by Enoinstitute, you will learn about the concept of energy, how to store energy, types of energy-storing devices, the history of energy storage systems, the development of energy storage by 2050, and long-term/short-term storage.

What is an energy storage course?

An energy storage course is an accredited program that equips participants with the latest knowledge on how to select the most effective energy storage technology, understand grid-connected and off-grid systems, and evaluate the costs & pricing of available options.

What are DNV training courses on energy storage (systems)?

DNV training courses on energy storage (systems) will increase your understanding of the technical, market and financial aspects of grid-connected energy storage, as well as the associated risks.

What is the solar and energy storage training course?

This three day training course on solar and energy storage will provide insight into the latest energy transition outlook for both solar and storage technologies. For more information please refer to the leaflet. This course is available on request. Content, location and duration of the course can be adapted to your specific wishes.

What professions participate in energy storage courses?

Participants range from all kinds of professions: project managers, engineers, lawyers, entrepreneurs, and artists. Accredited courses trusted by over 5,000

professionals and organisations worldwide every year.

What can I learn from DNV's Energy Storage Essentials course?

DNV will provide you with examples and present our view on best practices for energy storage using our industry supported GRIDSTOR methodology. On completing DNV's energy storage essentials course, you will be able to identify opportunities and risks for grid-connected energy storage in your business.
