Energy storage cabinet liquid cooling station cabinet

Overview

What is Vericom energy storage cabinet?

Vericom energy storage cabinet adopts All-in-one design, integrated container, refrigeration system, battery module, PCS, fire protection, environmental monitoring, etc., modular design, with the characteristics of safety, efficiency, convenience, intelligence, etc., make full use of the cabin Inner space.

What is a Bess 365kwh energy storage system?

BESS-365kWh Liquid-Cooled Energy Storage System The BESS-365kWh provides a strong balance between capacity and space-saving design, making it a cost-effective solution for commercial and medium-scale industrial use. Equipped with high-efficiency cooling and energy-dense LiFePO₄ cells, it offers high reliability and reduced maintenance.

What is 233kwh energy in one cabinet?

233kWh energy in one cabinet and ensure long-term endurance. Optimal in-PACK duct design, achieve high-efficient cooling and low energy consumption. Over 8,000 times cycle life, excellent performance of battery system. In-PACK and triple-level fire safety, prevent heat runaway.

How many kWh is a Bess cabinet?

Ranging from 208kWh to 418kWh, each BESS cabinet features liquid cooling for precise temperature control, integrated fire protection, modular BMS architecture, and long-lifespan lithium iron phosphate (LFP) cells.
