# Energy storage projects under construction in Bhutan

## Overview

---

Through the collaboration, at least 5,000 MW of renewable energy projects; including 4,500 MW of hydropower comprising the 1,125 MW Dorjilung HEP; 740 MW Gongri Reservoir; 1,800 MW Jeri Pumped Storage; and 364 MW Chamkharchhu IV will be developed in phases together.

Through the collaboration, at least 5,000 MW of renewable energy projects; including 4,500 MW of hydropower comprising the 1,125 MW Dorjilung HEP; 740 MW Gongri Reservoir; 1,800 MW Jeri Pumped Storage; and 364 MW Chamkharchhu IV will be developed in phases together.

~Projects encompass 2,000 MW of hydro, 2,500 MW of pumped storage, and 500 MW of solar capacities ensuring round-the-clock energy supply to Bhutan and India National: 19th, November 2024: In a landmark move to strengthen Regional energy security and support the clean energy transition, Tata Power.

With Tala, Chukha, Mangdechu, Basochu, Dagachu, Nikachhu and Kurichu the current power generation capacity of the country stands at 2,452.7 MW, which is 6.7 percent of the total estimated hydro-power potential of the country. Apart from the existing hydropower projects, a total of seven projects.

Bhutan is entering a new era of clean energy with major commitments from Adani, Reliance, and Tata to develop large-scale hydro and solar projects across the kingdom. The combined ventures — including Adani's 570 MW Wangchhu, Tata's 600 MW Kholongchhu, and Reliance's 500 MW solar farm — are set to.

Bhutan is poised for significant infrastructure development in 2025, with several major projects set to commence or reach completion. • Kholongchhu Hydropower Project: This 600 MW project is scheduled to begin in September 2024, with an expected completion by March 2029. • Dorjilung Hydropower.

The proposed 5GW capacity consists of 4.5GW of hydropower and 500MW of solar projects. Tata Power managing director and CEO Dr Praveer Sinha and DGPC managing director Dasho Chhewang Rinzin signed the MoU to develop 5000MW of clean energy projects in Bhutan. Credit: Tata Power. Tata Power

has.

Druk Green Power Corporation Ltd. (DGPC) and Tata Power Company Ltd. have signed an agreement to develop 5000MW of clean energy projects in Bhutan, focusing on hydropower, pumped storage, and solar energy. This partnership aims to enhance regional energy security and accelerate the transition to.
