Explosion-proof grade of outdoor power supply

Overview

Discover explosion-proof 24 V power supplies, add-on modules, and DC UPSs for Ex zone 2: SITOP Ex devices for occupational health and safety.

Discover explosion-proof 24 V power supplies, add-on modules, and DC UPSs for Ex zone 2: SITOP Ex devices for occupational health and safety.

A spark or hot surface can lead to serious industrial accidents in certain environments. In these environments, electronic devices must help ensure occupational health and safety by means of a special design and certificates. SITOP 24 V power supplies and add-on modules are therefore also available.

The EXP-UPS-120V-750VA-6X-10C-V1 is an Explosion Proof Uninterruptible Power Supply (UPS) for flammable environments. This battery backup unit works with 120V AC 50/60 Hz (input and output) and contains six explosion proof receptacles at the top of the UPS. Protected by a copper-free cast aluminum.

R. STAHL's power supply modules are designed for installation in Ex e enclosures in Ex Zones 1 and 2. They are easy to install, robust, and corrosion-resistant. It goes without saying that they offer 100% reliability. The Ex i module supplies a steady output voltage for the intrinsically safe.

hazardous areas in Zones 1, 2, 21 and 22. It is nec- equipment. this purpose. ble. All the electrical outgoing circuits can be fitted with separate MCBs or ELCBs. Customized compo- with the required Certificate of Conformity. protection IP 66, even with plugs inserted. under most extreme industrial.

Ideal for: remote solar PV powered systems, navigation systems & more The iPS1200EX explosion proof Zone 1 & 2 Uninterruptible Power Supply supplies a reliable and stable supply voltage to critical control & instrumentation systems in Zone 1 & 2 hazardous areas and supporting equipment from short.

The iUPS101 Uninterruptible Power Supply system is certified for use in ATEX and IECEx Zone 1 and 2 hazardous areas. It provides back up power to protect critical equipment, such as instrumentation and control systems, navigation or

landing lighting, or blow out prevention systems, in the event of.
