# Fiji 2025 Energy Storage Project

## Overview

---

The Republic of Fiji has invited international bids for a 100 kW solar mini-grid with battery storage in Tiliva Village. The project is financed by the Japan Fund for Prosperous and Resilient Asia, which is administered by the Asian Development Bank, headquartered in the Philippines.

The Republic of Fiji has invited international bids for a 100 kW solar mini-grid with battery storage in Tiliva Village. The project is financed by the Japan Fund for Prosperous and Resilient Asia, which is administered by the Asian Development Bank, headquartered in the Philippines.

Canberra-based renewable energy company EPC Solar has made its first foray overseas, launching into Fiji where it says it has a pipeline of more than 40 potential solar and energy storage projects. Australian solar installation business EPC Solar has signed a memorandum of understanding (MoU) to.

Many of these projects are already complete, some are in progress, but there is still much to do to reach our goal of sourcing 90% of our electricity from renewable energy by 2035. Future projects will require significant investment, and EFL is committed to keeping the community informed along the.

Asian Development Bank and Japan Fund financing has supported Fiji's tender for a 100 kW PV mini-grid in Tiliva, with bidding due on 18 October 2025 under ADB procedures. Link copied!Copy failed! A pre-bid meeting has been scheduled on 24 September 2025 at the Department of Energy office in Suva.

Ever wondered how a tropical paradise like Fiji plans to power its future?

The Fiji Energy Storage Project bidding announcement isn't just bureaucratic paperwork—it's a game-changer for Pacific renewable energy. With bids now open, this initiative aims to deploy cutting-edge storage solutions to.

By harnessing the abundant solar resources of the region, this project aligns with Fiji's national target of achieving 100% renewable electricity and its international commitments to reduce greenhouse gas emissions by 30% by 2030, thus improving living standards, health outcomes, job creation, climate.
