

Georgia Home Energy Storage System Production

Solar Panels, 2strings, each string 11 pcs

Overview

Will Georgia Power build a battery energy storage system?

Georgia Power has started construction on four battery energy storage systems across the state. The projects will add 765 megawatts of generating capacity, enough to power approximately 573,750 homes. Two facilities will be built near Air Force bases, one at a retired coal plant, and another will expand an existing facility.

Where are Georgia Power's new battery energy storage systems located?

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, Lowndes, Floyd and Cherokee counties.

Where are battery energy storage projects popping up?

Battery energy storage projects are popping up all over the U.S., which added nearly 4 GW of storage capacity in the second quarter of this year alone, according to a recent report. Most of the new batteries- 97% of them- ended up in ERCOT, WECC, and CAISO territories.
