Air Cooled/Liquid Cooled

The image shows a white, rectangular energy storage cabinet with a grey door on the left side. The cabinet has a control panel on the right side with several indicator lights and a warning symbol. It is standing on a black base with ventilation slots.

Overview

Is a portable power station worth it?

Sure, it isn't going to power your house through a days-long outage, but it offers a lot of nice features for the price, making it one of the better values out there, especially if you can pick it up on sale. How long do portable power stations last?

A portable power station's lifespan depends on the type of battery inside.

How do I choose a portable power station?

Here are the all the key factors you'll want to look at when deciding on a portable power station. Size: Portable power stations come in a wide array of sizes and capacities, from the small and compact EcoFlow River 3, to the more capacious Anker Solix F3800, which stretches the limits of the word "portable," despite coming with wheels.

What is the best portable power station for camping?

EcoFlow Delta Mini (882Wh) (Update: Out of stock): When we tested it, this model hit a sweet spot of basic functionality, capacity and price, earning it a spot on our list as the best portable power station for camping. It also supported charging with solar panels. Unfortunately, it's no longer available for sale.

What are the performance metrics for portable power stations?

Currently, we look at two main performance metrics for portable power stations: charge time and discharge capacity. Every company that sells portable power stations provides the expected number of watt-hours its products are supposed to last. That can vary from as low as 240 watt hours to as many as 2,000 watt hours for a larger power station.

What is the best portable power station?

With a great power-to-weight ratio, the latest version of the Bluetti Elite 200 V2 is a great portable power station for powering a camper or providing backup power for the essentials. With its tremendous capacity, the EcoFlow Delta Pro 3 is truly capable of providing a whole-home backup without gas or solar panels.

How long do portable power stations last?

Every company that sells portable power stations provides the expected number of watt-hours its products are supposed to last. That can vary from as low as 240 watt hours to as many as 2,000 watt hours for a larger power station. That means if you run a device with a 1-watt output on a power station with 240Wh, it should last for about 240 hours.
