Overview

What is a space capsule house?

The Space Capsule House is a modular, smart and eco-friendly living solution that is corrosion-proof, insect-proof, fire-proof, and waterproof, and supports solar and wind power for energy self-sufficiency.

Why should you buy a space capsule house?

Manufactured with the highest standards of quality, our space capsule houses promise unparalleled performance and durability. Whether double-deck or single-deck, each prefab capsule house is crafted to meet diverse needs while controlling both quality and costs, ensuring a superior product for global markets. Invest in the Future of Housing!.

What is a tiny capsule house?

Easily installed on any terrain, including peaks, forests, and beaches, without damaging the environment. Quickly assemble modular capsule-like building blocks and ship them globally in convenient containers. Eye-catching original tiny capsule house design leads to market trends, ensuring exceptional quality and functionality.

Can I buy a capsule house from overseas suppliers?

Purchasing a capsule house from overseas suppliers can be riddled with risks, from unclear supplier relationships to compliance issues with U.S. standards. HIDULAR mitigates these risks by managing the entire overseas ordering process for you.

How big is a capsule house?

Our capsule houses, with a generous width of 10.8 feet, offer extra room for your comfort. Featuring air conditioning, top brand appliances, and quality materials. Enjoy the convenience of smart control systems, an intelligent door lock, and electric curtains throughout the cabin.

What makes a capsule house unique?

Our capsule houses feature a galvanized steel exterior with aviation aluminum plates for unmatched durability. The fluorocarbon paint resists rust and corrosion, ensuring easy maintenance. Triple pane windows provide excellent soundproofing and UV protection, creating a peaceful and comfortable living space.
