

**SolarTech Power Solutions**

# **Green energy storage system meets standards**

## Overview

---

What is the battery energy storage system guidebook?

The Battery Energy Storage System Guidebook (Guidebook) helps local government officials, and Authorities Having Jurisdiction (AHJs), understand and develop a battery energy storage system permitting and inspection processes to ensure efficiency, transparency, and safety in their local communities.

What is the regulatory and compliance landscape for battery energy storage?

The regulatory and compliance landscape for battery energy storage is complex and varies significantly across jurisdictions, types of systems and the applications they are used in. Technological innovation, as well as new challenges with interoperability and system-level integration, can also amplify risks.

Are battery energy storage systems permitted in a zoning district?

Tier 1 Battery Energy Storage Systems shall be permitted in all zoning districts, subject to the Uniform Code and the “Battery Energy Storage System Permit,” and exempt from site plan review. 7. Permitting Requirements for Tier 2 Battery Energy Storage Systems.

What are the UL standards for energy storage systems?

UL 1973: Batteries for Use in Stationary and Motive Auxiliary Power Applications. Safety standard for modules and battery systems used in stationary energy storage systems. UL 9540, Energy Storage Systems and Equipment. Safety standard for energy storage systems used with renewable energy sources such as solar and wind.

How should a battery energy storage system be maintained?

Battery energy storage systems shall be maintained in good working order and in accordance with industry standards. Site access shall be maintained,

including snow removal at a level acceptable to the local fire department and, if the Tier 2 Battery Energy Storage System is located in an ambulance district, the local ambulance corps. C.

What is energy storage system?

**ENERGY STORAGE SYSTEM.** One or more devices, assembled together, capable of storing energy in order to supply electrical energy at a future time, not to include a stand-alone 12- volt car battery or an electric motor vehicle.

**4.2 2020 Existing Building Code of New York State Section 306 (Energy Storage Systems) SECTION 306 ENERGY STORAGE SYSTEMS**
