

SolarTech Power Solutions

Huawei Abkhazia solar module project

Overview

Will Huawei fusion solar power Red Sea city's off-grid energy needs?

Huawei's FusionSolar Smart String Energy Storage Solution will power the Red Sea City's off-grid, clean energy needs. The Red Sea Project, a key part of SaudiVision2030, is now the world's largest microgrid with 1.3GWh storage capacity.

Can Huawei help Saudi Arabia build a greener future?

"The destination is poised to be the world's first fully clean energy-powered destination, and Huawei is honored to participate in this project and help Saudi Arabia build a greener and better future through technological innovation," said Xing, President of Huawei Digital Power for the Middle East and Central Asia.

What is Huawei fusionsolar smart string energy storage solution (ESS)?

Central to this vision is Huawei's FusionSolar Smart String Energy Storage Solution (ESS). This solution will enable the Red Sea Project to independently meet its power needs. The microgrid solution addresses the intermittent and fluctuating nature of solar and wind power. It ensures the safe and stable operation of renewable energy systems.

What is Huawei doing in Asia-Pacific?

Meanwhile, in Thailand, Huawei built Asia-Pacific's largest single-site C&I PV and ESS plant at Mahidol University, including a 12 MW PV system and a 600 kWh ESS. "Huawei's smart string and grid-forming ESS solution significantly improves a power grid's ability to integrate renewable energy," Xing explained.

Is Huawei the leading solar inverter vendor in 2022?

Huawei's dominance in the renewable energy sector is further evidenced by its position as the leading global solar photovoltaic (PV) inverter vendor in

2022, with a 29 percent market share, according to Wood Mackenzie.

What is Huawei doing in the world?

Notable projects include a 25.8MW Distributed Program for Dubai Global Port Group and the world's first grid-forming battery energy storage system (BESS) in China. In Thailand, Huawei built the largest single-site C&I PV and ESS plant in the Asia-Pacific region at Mahidol University.
