# **Huawei Vietnam Independent Energy Storage Project**

## Overview

---

Huawei's energy storage project enhances grid stability, facilitates the integration of renewable energy sources, optimizes energy consumption efficiency, and supports economic growth by reducing dependency on fossil fuels.

Huawei's energy storage project enhances grid stability, facilitates the integration of renewable energy sources, optimizes energy consumption efficiency, and supports economic growth by reducing dependency on fossil fuels.

With a spirit of collaboration and long-term commitment, Huawei Digital Power proudly participated in Solar & Storage Live Vietnam 2025 (July 9-10, Ho Chi Minh City), reaffirming its sincere commitment to accompanying Vietnam on its journey toward energy transition and the development of a.

Ho Chi Minh City-based Vietnam and Global Green Power JSC (Green Power) and Chinese giant Huawei have signed an MoU on developing 100 MWp of rooftop solar energy in Vietnam. According to the MoU signed on Monday, Huawei will provide inverters, energy storage systems (ESS), and other technological.

► Vietnam's Ministry of Industry and Trade mandates 15% storage for new renewable projects (up 5% from 2024), triggering a 300% surge in 2025 storage tenders. ► Industrial park "PV + Storage + EV Charging" integration becomes standard, with levelized energy costs below \$0.1/kWh. #PolicyWins.

This article was written in collaboration with Partner, Vu Le Trung and Associate, Vu Ha Anh of VILAF One of the key highlights of Vietnam's revised Power Development Plan VIII (PDP8) is the significant increase in the targets for Battery Energy Storage Systems (BESS). The original PDP8 approved in.

EVN's 50 MW Battery Energy Storage Systems (BESS) pilot project, in collaboration with ADB and GEAPP, aims for 300 MW by 2030. Vietnam is the fastest-growing energy market in Asia, according to the International Trade Administration. The government anticipates a 10-12% annual surge through

2030 in.

On July 30 in Hanoi, Vietnam Electricity (EVN) and Huawei Technologies (China) jointly organized a technical workshop titled “Digital Power Grids, Energy Storage, and Distributed Energy Monitoring Solutions.” This event marked the first collaborative activity following the signing of a Memorandum.
