Huawei energy storage cabinet battery output current

LiFePO$_4$ Battery, safety

Wide temperature: -20~55℃

Modular design, easy to expand

Wall-Mounted&Floor-Mounted

Intelligent BMS

Cycle Life:≥6000

Warranty:10 years

Overview

SmartLi 2.0 is a self-developed battery energy storage system solution. It provides a cabinet-level battery management system and supports a maximum of 15 cabinets connected in parallel to meet MW-level UPS backup power requirements.

igent peak staggering at base stations. Huawei CloudLi Smart Lithium Batter integrates power electronics,IoT,and cloud technologies o implement intelligent energy storage gs in the event of problems in the ESS. Within the Smart String ESS, faulty packs and racks are isolated and disconnected, and.

With an impressive capacity of 215 kWh, this advanced battery solution offers a reliable and efficient way to maximise solar power and meet energy needs. The HUA-LUNA2K-215-2S10 is designed to seamlessly connect to an existing solar power system, allowing the generated energy to be stored for use.

Energy Storage System Products List covers all Smart String ESS products, including LUNA2000, STS-6000K, JUPITER-9000K, Management System and

SOLAR PRO.

other accessories product series.

With an impressive 129kWh capacity, this advanced battery solution offers a reliable and efficient way to maximise solar power and cover energy needs. The LUNA2000-129KWH-2H1 is designed to connect seamlessly to existing solar power system, allowing generated energy to be stored for use when.
