Huawei energy storage system with motor

Standard 20ft containers

Standard 40ft containers

Overview

Huawei FusionSolar offers scalable storage solutions across all segments: from the new LUNA2000-S1 for residential buildings to the powerful LUNA2000-215-2S10 for C&I applications and the 4.5MWh-2H1 large-scale storage system for utility projects. What is Huawei smart string energy storage system?

With Huawei Smart String Energy Storage System, you can power your life by green power storage and be astonished by its admirable performance. No matter nights, rainy days or unexpected blackouts off the grid, the solar power is always at your request as a real bank. The built-in optimizer independently manages each battery module.

What makes Huawei a good battery management company?

Offering innovative battery management solutions, Huawei has placed emphasis on safety and performance optimization. Batteries are the heart of every storage system and are also subject to risks such as over- and under-discharge or over- and under-temperature.

What is Huawei C&I storage?

Huawei's C&I storage systems are certified for both low voltage and medium voltage grid connection and are redefining the ESS landscape, together with the LUNA2000 series and with Smart PCS LUNA2000-100KTL-M1 100 kW converter. Offering innovative battery management solutions, Huawei has placed emphasis on safety and performance optimization.

What is Huawei fusion solar?

Huawei FusionSolar offers scalable storage solutions across all segments: from the new LUNA2000-S1 for residential buildings to the powerful LUNA2000-215-2S10 for C&I applications and the 4.5MWh-2H1 large-scale storage system for utility projects. The systems are based on safe LFP technology and can be seamlessly integrated into PV systems.

How many kWh can a Huawei smart backup box hold?

With options of 5 kWh, 10 kWh or 15 kWh and extensions up to 30 kWh, it adapts to your requirements. The system is safe, reliable and easy to install, perfect for single and three-phase inverters. The wall mount for the storage can be purchased separately. The Huawei Smart Backup Box secures your power supply in the event of a power failure.

How many machines can be installed in a Huawei C&I system?

These storage systems are very flexible, up to 5 machines can be installed in the same system, in this way there is scalability from approximately 97 to 970 kWh in steps of 30 kWh. The combination with string inverters from the Huawei C&I segment occurs naturally with a single supervision system.
