

SolarTech Power Solutions

Hungarian energy storage container manufacturer

Overview

What is Hungarian gas storage?

Being the largest commercial natural gas storage company in Hungary, Hungarian Gas Storage Ltd operates, maintains and continuously develops four underground gas storage facilities, with a total gas storage capacity of 4.43 billion m³ and a total daily withdrawal capacity of 49.8 million m³.

Why is natural gas a major energy source in Hungary?

Natural gas is now the most important energy source in Hungary. In meeting the winter peak demand, and in establishing and maintaining the security of gas supply, underground storage sites play a major role. On any colder winter day, most of the country's gas supply comes from these facilities.

How much solar power does Hungary have?

State secretary for energy transition of the Energy Ministry Viktor Horvath noted that Hungary had built more than 8,000MW of solar capacity in the past 5-6 years and one-quarter of the electricity generated in the country came from renewable sources last year.
